

IQ-DigitS Interoperability of qualifications by building sustainable Digital credentials Infrastructure

Short presentation of the project

June 2022

Project team

Project consortia

Academy CES, North Macedonia – Coordinator of the project.

Uciliste Studium, Croatia – Partner of the project.

Egina, Italy –Partner of the project.

bit Schulungscener, Austria – Partner of the project.

Project objectives:

- SO1 Adopting common principles and methodologies in regular work of AE/VET providers, to enable interoperability of qualifications;
- SO2 Improve quality standards at AE/VET providers on European level;
- SO3 Introduce digitalization in systems for certification; and
- SO4 Facilitate validation of non-formal and informal learning.

Introduction the project

IQ-Digits is a transnational project of our EU countries; North Macedonia, Austria, Italy, and Croatia.

General objective:

Contributing to the quality assurance in VET and AE, by implementing sustainable model of certification based on **micro credentials**, and **digital certification** of our adult learners, compatible with the Europass Digital Credentials Infrastructure (EDCI).

Project results:

- PR1 Mapping of [applied methodologies in developing existing curricula for accredited trainings at AE / VET providers](#) and benchmarking report with recommendations for development of common methodology.
- PR2 Common methodology for adaptation of existing curricula, to the modular learning, based on learning outcomes and micro-credentials.
- PR3 [Infrastructure for digital](#) certification compatible with Europass model and digital credentials.
- PR4 Guideline for VET/ AE providers how to introduce micro-credentials digital credential model to their systems for certification.
- PR5 Policy recommendations for improving the national systems for quality assurance in VET and AE, by implementing standards and principles from European models .

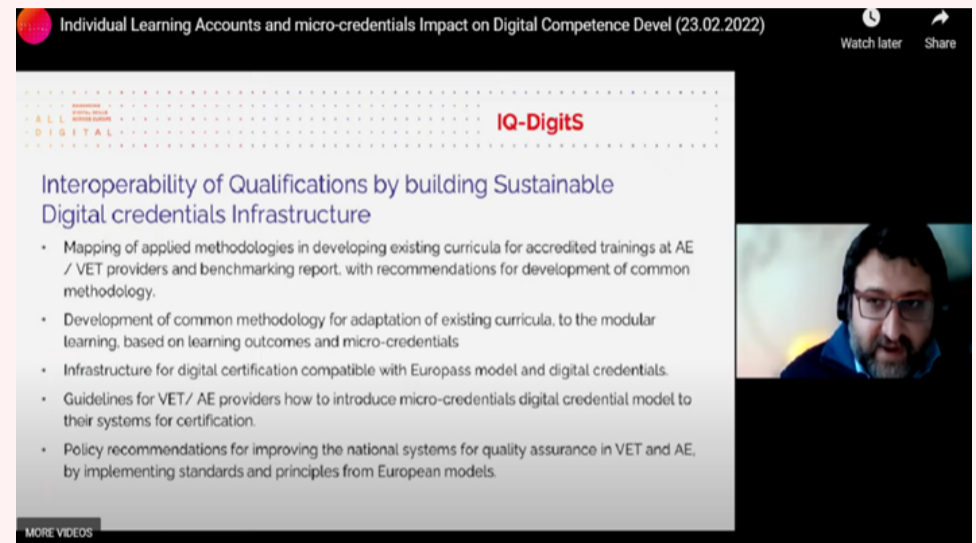

June 2022

On 23.02.2022, the project IQ-DigitS was presented at:

Policy event “Individual Learning Accounts and micro-credentials: Impact on Digital Competence Development”

organized by ALL DIGITAL.

<https://all-digital.org/events/policy-event-on-ilas-micro-credentials-on-23-02-2022/>

Presentation of the project at the Policy event:
ILAS and Micro-credentials in organization of
ALL-Digital

TCA seminar “Digital literacy in teaching, learning and the administration of the Erasmus+ Programme”

On 13.05.2022, the project IQ-DigitS was presented at the:

TCA seminar “**Digital literacy in teaching, learning and the administration of the Erasmus+ Programme**”

organized by the DAAD – German National agency, with in the Workshop TCA “How to support educators in the digital transition”.

Kick off meeting Skopje 24-25.03.2022

Project duration:

January 2022 – June 2024

Coordinator of project:

Academy CES
