

IQ-DigitS Interoperability of qualifications by building sustainable Digital credentials Infrastructure

Project Result 1

Project Result 1 - Mapping of applied methodologies in developing existing curricula of accredited trainings at AE / VET providers and benchmarking report with recommendations for development of common methodology

PR1 has been developed with the purpose of providing a comparative analyses of VET and AE systems in North Macedonia, Italy, Austria, and Croatia with special focus on the methodology for education program development and accreditation.

On May 4 2022, an online meeting with the purpose of developing the PR1 framework and preparation guidelines was organized

Each partner has prepared a national report and the findings from national contexts were compared with one another, but also with the policies and guidelines of the EU.

The conclusions and recommendations from PR1 will be used in the development of PR2 - Common methodology for adaptation of existing curricula, to the modular learning, based on learning outcomes and micro-credentials.
